

# Find a Doctor

Use our online provider directory or call SelectHealth Member Advocates® to find participating providers.

## PROVIDER DIRECTORIES

To access the online provider directory, visit [selecthealth.org/providers](http://selecthealth.org/providers). You can search for providers by state, network, specialty, gender, and languages spoken.

## MEMBER ADVOCATES<sup>SM</sup>

Member Advocates can help you:

- > Find a doctor who is accepting new patients
- > Provide information about a doctor's certifications, training, and age
- > Choose a facility or doctor closest to you with the next available appointment
- > Understand and maximize your benefits
- > Get an appointment for urgent conditions when your doctor is unavailable

Member Advocates can also help you prepare for an appointment by informing you of any special requirements a doctor may have. For example, a neurosurgeon may require an MRI before your initial visit, or a cardiologist may require a prescreening. Member Advocates are available weekdays, from 7:00 a.m. to 8:00 p.m., and Saturdays, from 9:00 a.m. to 2:00 p.m.
