

Your Network of Doctors and Hospitals

In Idaho, you have participating benefits for a wide network of hospitals, doctors, and healthcare professionals throughout the state. You can use St. Luke's nationally recognized hospitals, facilities, and physicians through the St. Luke's Health Partner's network.* In addition, you have access to providers on the BrightPath network. Altogether, you can see more than 3,800 providers and healthcare professionals, and 45 hospitals, surgery centers, and skilled nursing facilities statewide.

You also have participating benefits at many care facilities in Utah, including speciality hospitals like Primary Children's Hospital and the Huntsman Cancer Hospital for cancer treatment.

Use our provider search tool at selecthealth.org/provider to see which doctors and facilities are included in your network.
